Dedicated Partner

Our *Services*

Web Development

Mobile App Development

UI/UX Design

Backend & API Development

DevOps & Cloud

AI & Automation

QA & Testing

SERVICE 01

Web *Development*

Performant, scalable web applications built with modern frameworks and best practices.

- ✓ React, Next.js, Vue — SPA & SSR
- ✓ Responsive, pixel-perfect UI
- ✓ SEO-optimized architecture
- ✓ Progressive Web Apps (PWA)

Frontend

React · Next.js · TypeScript · Tailwind

Delivery

CI/CD pipelines · performance-first

SERVICE 02

Mobile App *Development*

Cross-platform and native apps that feel right on any device.

- ✓ React Native for iOS & Android
- ✓ Native-like performance
- ✓ Offline-first architecture
- ✓ App store deployment support

Stack

React Native · Expo · TypeScript

Platforms

iOS · Android · cross-platform

SERVICE 03

UI/UX *Design*

Design that converts — clean, intuitive interfaces grounded in research and user behavior.

- ✓ User research & journey mapping
- ✓ Wireframes to high-fidelity prototypes
- ✓ Design systems & component libraries
- ✓ Usability testing & iteration

Tools

Figma · FigJam · Storybook

Output

Dev-ready specs · design tokens

Backend & *API Development*

Robust server-side systems and APIs that power your product at any scale.

- ✓ RESTful & GraphQL API design
- ✓ Node.js, NestJS, Go, Python
- ✓ Database design & optimization
- ✓ Authentication & security

Runtime

Node.js · NestJS · Go · Python · PostgreSQL · Redis

Security

JWT · OAuth2 · RBAC · HTTPS

SERVICE 05

DevOps & *Cloud*

Infrastructure that ships fast and scales reliably — from pipelines to production.

- ✓ CI/CD setup (Jenkins, GitLab)
- ✓ Docker & Docker Swarm / Kubernetes
- ✓ AWS, GCP, DigitalOcean deployment
- ✓ Monitoring, alerting & uptime

Infra

Docker · Nginx · Linux · cloud VPS

Pipelines

Jenkins · GitLab CI · GitHub Actions

SERVICE 06

AI & *Automation*

Intelligent automation that supercharges your business processes and products.

- ✓ LLM integration & prompt engineering
- ✓ Workflow & process automation
- ✓ AI-powered product features
- ✓ Custom chatbots & assistants

Models

OpenAI · Anthropic · custom fine-tunes

Output

Chatbots · auto-pipelines · smart APIs

SERVICE 07

QA & *Testing*

Comprehensive quality assurance so every release is reliable, fast, and bug-free.

- ✓ Manual & automated test suites
- ✓ E2E with Playwright / Cypress
- ✓ Performance & load testing
- ✓ Bug tracking & regression cycles

Tools

Playwright · Cypress · Jest · k6

Coverage

Unit · integration · E2E · performance

LET'S BUILD TOGETHER

AZSoft

From idea to production — we partner with companies
that want a reliable, skilled team on their side.
